The first box shows a stack of cards, one with a question mark. The second box shows a "Streamline" card. Below the text are five boxes, each containing an item and a quantity: 300 (a silver helmet), 1 (a blue rifle), 1 (a gold rifle), 3-DAY (a green key and a blue ring), and 1 (a purple diamond-shaped emblem).

1 (Blue rifle)	1
1 (Gold rifle)	1
3-DAY (Green key and blue ring)	3-DAY
1 (Purple diamond emblem)	1

Good very good. REMINDER If you log in your warframe account, the game will ask if you want to active the pack. so if you accidently log in another account you can easily say "no",
DE make a small mistake but fix it in 24 hourse, applause to them!

Good value even at full price

Despite the title "starter pack", I suggest only buy this when you already got around 30 hours in game and know the basic so you dont waste the booster and orokin reactor\catalyst on random stuff

The syndana preety cool

Mod pack actived automaticly so you must check it on the mod menu with "recent" option (kinda suck because i want to taste the "feeling" when oppening it)

The cosmetic stuff simple but cool (with that bling bling color i love it some how)

300 plat make you "Insta good lookin primed warframe with gold bling bling" (or if you decide to use it on something else) or just bought some slot (like ist really really really important, trust me)

overall good and totally enjoy it really a "starter pack" feelin you got with this.

i hope DE realese more package like this so i dont need to press everything i want individually in market

Remind me again why this game is free?
